OBJECTIVE ||

I am a dedicated C# Developer with over 4 plus years of hands-on experience in diverse web development projects. Throughout my career, I have proficiently managed every phase of the development life cycle, leveraging my expertise in C#, Asp.Net, and Microsoft SQL Server. Guided by my strong grasp of OOP, Onion, MVC, and SOLID principles, I have crafted user-centric, dynamic, and inventive websites that seamlessly integrate responsive and adaptive design. My skill set encompasses HTML, CSS, JavaScript, and a deep proficiency in C#, reflecting my commitment to delivering innovative and functional solutions.

KEY SKILLS ||

- C# / Typescript / JavaScript
- Asp.net Core/MVC ,Entity Framework, Asp.net Identity (JWT, OWIN)
- Microsoft Sql Server
- jQuery
- ReactJS
- HTML
- CSS / Bootstrap
- RDLC Reports
- Angular (Intermediate)
- SOLID, OOP and MVC principles
- 3-tier / N-tier Architecture / micro-services.
- MVC / Repository Pattern.
- Version Control – GitHub, Bitbucket, Azure DevOps (intermediate)
- AWS services, Microsoft Azure

- Proficient Database Design Expert
- Experience of building and integrating with API's
- Proficient in developing and maintaining high-quality front and back-end code within agreed timescales
- Skilled in reviewing other developer's solutions and code
- Clear progress updates to managers and stakeholders
- Ability to produce comprehensive documentation
- Capable of providing first-line technical support for issues and bugs
- Proficient in using project management tools like Jira, Trello, Azure board

---

QUALIFICATIONS ||

BSCS (HONS)	FEDERAL URDU UNIVERSITY OF ARTS, SCIENCE & TECHNOLOGY, ISLAMABAD, 2016-2020

Modules covered included web programming, Web Designing, Artificial Intelligence, Data Structures and Algorithms, Logic and Computation, Object Oriented Programming, Database Management System, Data Mining, Software Quality Assurance, Human-Computer Interaction, Data Science, Machine Learning and Intelligent Data Analysis etc.

Semester	Project	Tool & Technologies	
2nd	Tic tac toy (Desktop App)	• java	• NetBeans
3rd	Text editor (windows form)	• C#	• Visual studio
3rd	Calculator (windows form)	• C#	• Visual studio
5th	Doctor Appointment System	• C#	• Asp.Net MVC
6th	Image Processing	• MATLAB	
6th	Pakistan Monument Islamabad (3D modal)	• 3D Max	
6th	F-16 (3D modal)	• 3D Max	
6th	Student Admission Management	• Html • CSS	• PHP
FYP	Mood base Recommender System	• Python	• Jupyter Notebook
FYP	Online Sale Purchase of Vehicles	• Html • CSS	• PHP • JavaScript

FULL STACK DEV (Remote)	HTTP://ICOMPLIANCE.ONLINE/:	MAY 2022 – CURRENT

My responsibilities at these companies included:
- Develop new app from scratch.
- Diagnosing and fixing bugs
- Scoping out and developing new features in line with a specification and to a deadline
- Making improvements to Interfaces and adding new features
- Works on Web Api's.
- Manage database
- Developing both client side and server-side code.
- Working as a full stack developer.
- I work in a team or as an individual for these companies.
- Project Management

1. School Management System:
Developed a comprehensive school management system to streamline administrative tasks, student record, and communication between stakeholders. url: https://uswagb.edu.pk

2. Waste Management System:
Designed and implemented an efficient waste management system that optimizes waste collection routes and enhances sustainability efforts.

7. E-Commerce Platform for Bigpage Pvt. Ltd
Contributed to the development of an end-to-end e-commerce platform for Bigpage Pvt. Ltd, enabling online sales and customer interactions. url: https://bigbook.io, https://app.bigbook.io

8. Hospital Management System (DrCurves)
Led the development of a comprehensive hospital management system tailored to the specific needs of DrCurves Hospital. url: https://patientportal.drcurves.com, https://drcurves.com

3.Computer Ergonomic Workstation Evaluation

Created a tool for evaluating computer workstation ergonomics, promoting employee health and well-being.

4.Credit Repair

Engineered a credit repair solution that assists clients in improving their credit scores through data analysis and personalized strategies.

5.Hospital Information System (HIS)

Collaborated on building a HIS to digitize patient records, appointments, and billing processes, enhancing overall hospital efficiency.

6.Preboard Exam

Developed an interactive preboard examination platform to aid students in preparing for academic assessments effectively.
url:http://www.boldpak.com

9.Hostel Management System

Created a robust hostel management system that simplifies room allocation, fee management, and resident communication.

10.Patent and Trademark Monitoring System

Designed a system for monitoring patent and trademark applications, providing real-time updates and alerts to clients.

11.app.icompliance.online

Contributed to the development of the app.icompliance.online platform, facilitating compliance management for businesses.
url: https://app.icompliance.online

12.icompliance.online

Played a key role in developing icompliance.online, a platform dedicated to assisting organizations with compliance-related tasks.
url:https://icompliance.online
